WATER SURFACE CLEARER SPRAY

- Natural based product (orange oil)
- Clears the water's surface of unwanted aquatic matter
- Safe and easy to use
- Australian Made & Owned
- Harmless to pets, rooted plants & people

Orange oil spray affects various free floating aquatic matter on the water's surface by reducing its buoyancy. By affecting its buoyancy, the unwanted aquatic matter slips under the water's surface and sinks to the bottom.

SAFE FOR

Swimming, Irrigation, Stock, Fish, Aquatic Plants, Pets, Wildlife, The Environment & is a Natural product.

This natural orange oil product makes problematic aquatic matter on the water's surface lose its buoyancy, causing it to sink below the water.

HOW CAN I CONTROL FREE-FLOATING AQUATIC MATTER ON MY WATER'S SURFACE?

Free-floating aquatic matter can be hard to get rid of. Depending on how serious your coverage of aquatic surface matter is, the recommended treatment will vary.

When the amount of aquatic matter is not great, it's best to use just this spray treatment. For larger coverage that covers more than 90% of the water's surface, a combination of physical removal and this spray treatment is your best bet.

Our lightweight *Aquatic Weed & Debris Skimmer* for Duckweed, Lemna, Azolla and Salvinia works perfectly in conjunction with this spray treatment for larger coverage problems.

The Aquatic Weed Control Experts

ORANGE OIL Water Surface Clearer

Application Rates:

Where To Use	How Much To Use	How To Apply	When To Use
Dams, Reservoirs and Ponds	1L per 500m ² of water surface area.	Mix 1-part product with up to 100 parts water and spray using a back pack sprayer directly onto the water's surface.	Best to apply several light applications rather than one heavy application.

For Best Results:

Apply lightly and evenly across the water's surface. For best results, apply on day 1, 2 and 4.

**Always read the product label for directions.*
