In the fight against shoreline weeds, here's your edge >

Weed Razor

Weed Razor

Clear your pond, dam or lake of weeds in minutes

1. Give it a throw
2. Let it sink
3. Pull it in

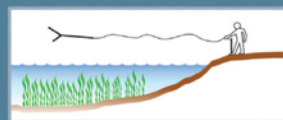

The Weed Razor is easy to use. Simply throw it from your dock, shore or boat. It weighs just 3.6kgs. It's light enough to throw 8m or more, but easily sinks to the bottom. The razor sharp edges slice effortlessly through most types of aquatic vegetation.

- Cuts in deep or shallow water
- Works at the base of the weeds
- Offers little to no resistance by slicing weeds rather than simply dragging them
- Cuts up to 1.2m wide path each throw
- Cut weeds can be easily collected with the [Weed Rake](#)
- It comes with a 7.6m rope and hand sharpener

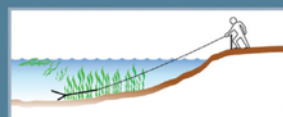

Caution: Blades are very sharp! Always keep the blade covers on *The Weed Razor* when not in use.

Clear a path up to 1.2m wide and 8m long with each throw >

1. Throw Weed Razor out and over area to be cleared

2. Pull it back in using short jerking hand motions

3. Repeat as needed
