## Aquatic CLEAR DROP *for* DAMS

*The quick & effective Dam clarifier*

*Aquatic CLEAR DROP is a granular flocculent that assist in the removal of organic matter, microscopic organisms and some forms of algae to quickly achieve greater water clarity.*

Murky water can cause unwanted effects to your dam system:

- Blocking filtration systems
- Affecting water quality
- Undesirable aesthetics

***Aquatic CLEAR DROP*** returns noticeable dam clarity within **24-36 hours**.

### Application Instructions

**Application Ratio:** *Treat with an application rate of 20kg to 500,000L (1/2ML) of water.*

- 1) Dissolve **Aquatic CLEAR DROP** in a bucket filled with dam water (*at a ratio of 400g per 10,000L*).
- 2) Sprinkle over dams's surface as evenly as possible.
- 3) Allow 24-36 hours for Aquatic CLEAR DROP flocculent to settle to the bottom.
- 4) If water remains murky after first application, a second can be applied after 72 hours.
